

Energy Block Grants Work!

CAMPAIGN TO SAVE EECBG

Bellflower Combats Climate Change

The City of Bellflower, California is working with Willdan Energy Solutions to improve the City's environmental performance with its Energy Efficiency and Conservation Block Grant (EECBG) funding. **Bellflower and Willdan are significantly reducing the City's annual energy consumption** through upgrades to the City's HVAC systems, traffic and pedestrian signals and parking lot lighting, as well as enhanced community outreach.

Bellflower is using EECBG funding to ...

- Establish a greenhouse gas baseline for the City and **develop a Climate Action Plan** that sets targets for future performance.
- **Weatherize its City Hall** by removing old and damaged window sealants and re-caulking exterior doors.
- Replace the roof of Bellflower's Thompson Park Community Center with a new ENERGY STAR-compliant roof that will **increase solar reflectance from 45 percent to 70 percent**.

For more information about Bellflower's EECBG activities, contact Jake Berlin at jberlin@willdan.com.

Impact on Bellflower, CA

- \$654,000 in EECBG funding
- More than 157,000 kWh in annual energy savings
- Development of a Climate Action Plan
- Creation of a greenhouse gas inventory

Organized by Climate Communities, the Energy Block Grants Work! campaign is showcasing how cities and counties across America are using federal Energy Efficiency and Conservation Block Grant (EECBG) dollars to create jobs, save energy, and reduce carbon pollution.
