

Energy Block Grants Work!

CAMPAIGN TO SAVE EECBG

Carmel Switches to Efficient Lighting

The City of Carmel, Indiana is utilizing its Energy Efficiency and Conservation Block Grant (EECBG) funding to improve the environment and while enhancing safety for Carmel residents and visitors. **The measures that Carmel is undertaking will produce energy savings as high as 50%.**

Carmel is using EECBG funding to ...

- Replace inefficient metal halide and high-pressure sodium street lights with more efficient LED street lights, **benefitting the entire community by reducing energy bills while enhancing lighting along Carmel's streets.**

Impact on Carmel, IN

- \$633,000 in EECBG funding
- 406,508 kilowatt-hours of energy conserved annually
- 21,148 metric tons of CO₂e emissions prevented each year

For more information about Carmel's EECBG activities, contact David Huffman at dhuffman@carmel.in.gov.

Organized by Climate Communities, the Energy Block Grants Work! campaign is showcasing how cities and counties across America are using federal Energy Efficiency and Conservation Block Grant (EECBG) dollars to create jobs, save energy, and reduce carbon pollution.
