

Energy Block Grants Work!

CAMPAIGN TO SAVE EECBG

Ramsey County Charges Up Sustainability Efforts and Vehicles

Ramsey County, Minnesota is utilizing its Energy Efficiency and Conservation Block Grant (EECBG) funding to use energy in a manner that will protect the environment and public health and conserve natural resources and reduce greenhouse gas emissions. By investing in electric vehicle infrastructure, **Ramsey County is becoming a national leader in promoting the electrification of the transportation sector.**

Ramsey County is using EECBG funding to ...

- Install **electric vehicle charging stations** in high-traffic and high-visibility areas, helping residents prepare for the next-generation of automobiles while reducing dependency on fossil fuels.
- Replace traditional incandescent and fluorescent lights with high-efficiency versions, along with other building retrofit work, to reduce energy consumption and **save over \$87,000 annually.**
- Create a County-wide **comprehensive energy plan** and conduct building energy audits to promote future sustainability increases.

Impact on Ramsey County, MN

- \$813,900 in EECBG funding
- 10 jobs to be created or retained
- 1,100 megawatt-hours of energy conserved annually
- 933 metric tons of CO₂e prevented

For more information about Ramsey County's EECBG activities, contact Cheryl Armstrong at (651) 266-1161, or Cheryl.armstrong@co.ramsey.mn.us.

Organized by Climate Communities, the Energy Block Grants Work! campaign is showcasing how cities and counties across America are using federal Energy Efficiency and Conservation Block Grant (EECBG) dollars to create jobs, save energy, and reduce carbon pollution.
