

Energy Block Grants Work!

CAMPAIGN TO SAVE EECBG

Pico Rivera Works to Reduce Energy Consumption

The City of Pico Rivera, California is working with Willdan Energy Solutions to maximize the impact of its Energy Efficiency and Conservation Block Grant (EECBG) funding. **Pico Rivera and Willdan are significantly reducing the City's annual energy consumption** through upgrades to the City's HVAC systems, traffic and pedestrian signals and parking lot lighting, as well as enhanced community outreach.

Pico Rivera is using EECBG funding to ...

- Replace 437 of its existing incandescent traffic/pedestrian signal lights with **high-efficiency LED lights**.
- Launch a community outreach program that will educate residents on energy conservation and **help them make more informed energy choices**.
- **Upgrade five outdated HVAC units** at three City-owned facilities to enhance energy efficiency.

For more information about Bellflower's EECBG activities, contact Jake Berlin at jberlin@willdan.com.

Impact on Pico Rivera, CA

- \$579,400 in EECBG funding
- 437 traffic/pedestrian signal lights replaced with LED lights
- 5 obsolete HVAC units at municipal facilities replaced

Organized by Climate Communities, the Energy Block Grants Work! campaign is showcasing how cities and counties across America are using federal Energy Efficiency and Conservation Block Grant (EECBG) dollars to create jobs, save energy, and reduce carbon pollution.
